

Vehicle Wraps

PAINT IS DEAD

Wrap vinyl comes in an astonishing variety of colors, textures and finishes that paint can't possibly touch. Our expert installers can match any graphics you like or customize a design exclusively for you.

Vehicle wraps: how do they work?

Do you use top quality materials?

We stock the top name brands in vinyl, including 3M, Avery, Oracal, Vivid and Mactac.

Are they safe for my car?

Unlike paint, vinyl wraps can be removed at any time and are safe for your original finish. All wraps are warranted against fading & peeling.

How long does it take?

Most vehicles can be installed in 1 - 2 days. All vehicles should be free of rust, dents and scratches for best results.
